Muhammadiyah University of Surakarta

Praktikum Steps

1. Run the DB Designer application program to create a star schema design.
2. Click the new table button to create a new table.
3. Make a table of goods names, make goods_code as primary key.

barang
🔑 kode_barang: VARCHAR(20)
🔹 nama_barang: VARCHAR(45)
🔹 sub_kategori: VARCHAR(45)
🔹 kategori: VARCHAR(45)

4. Make other tables like in the module then give the relationship between tables.

Task
